

ESD WELDED ENCLOSURES

IN A VARIETY OF SIZES AND CONFIGURATIONS

- Seal welded enclosure
- Keeps dust and debris out
- Doors come standard with keyed-alike locking handles
- 14Ga steel construction
- Painted White inside Bliss Blue textured finish outside
- Projects a professional appearance
- Can be retrofitted by you in the field for nitrogen use

The Bliss Industries ESD Welded Enclosures are heavy-duty seam welded and all seams are sanded smooth for a professional appearance. These enclosures are available in a variety of standard sizes and can be custom built for specialized applications. These enclosures are showroom quality and are painted gloss white smooth finish on the inside to allow you to more easily see stored items.

These enclosures can be converted by you in the field for nitrogen for storing Moisture Sensitive Devices MSD's. Simply drill a couple holes to install your nitrogen controls and hoses and mount the sensors inside and your ready to go, at about half the cost of the competitors model. Contact our engineering department for more information on nitrogen applications.
